Training registry of the Modern Business Services sector

WHAT THE PROJECT IS ALL ABOUT?

The project is an initiative created with the current labor market in mind. Syntea S.A. is responsible for its implementation, in cooperation with four entities from Poland, Cyprus and Italy, operating in the education sector.

The project aims to create a Training Registry for the Modern Business Services sector and to promote and disseminate virtual reality (VR) and augmented reality (AR) tools as innovative training methods.

Co-funded by the European Union

NOW UP AND RUNNING
TRAINING SERVICES REGISTRY

Service Registry for everyone

The solution we have created responds not only to the needs of employers and training providers, but also to learners and job seekers.

It includes training offers from each country represented by the respective Partners (Poland, Cyprus, Italy), enabling the acquisition of high quality qualifications in accordance with the European Qualifications Framework. Thanks to the functionalities included in the registry related to the acquisition, collection and publication of microcredentials, together with an authentication mechanism based on the latest standard for the implementation of digital badges: OpenBadge 3.0, the user will increase the credibility of his professional profile.

Why You should use the registry?

- **Easy access**
Find the best training offers for your career in the MBS sector, from different EU countries, in one place.
- **Greater employability**
Develop competencies and validate them by earning verifiable microcredentials.
- **Occupational Mobility**
Acquire Qualifications recognized throughout Europe, thanks to references to the EQF. Acquire microcredentials compatible with EU standards.
- **Competitiveness**
If you are a training institution: publish your service offers and expand your reach. Increase the attractiveness of your services with the registry functionality.
- **Networking**
Establish contacts with training and education providers, MBS EU countries and employees from various EU countries.

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.
